50X1-HUM

1. The Elite-Diamant plant in Siegmars-Schönau (K55), which has been a landowned enterprise since the spring of 1946, has been taken over for reparations and is now producing frames for "rocket guns" such as the Stalin-Orgel. Two Soviet engineers are in control of this production.
2. In December 1947 the plant produced 5,000 bicycles and 150 knitting machines. This output was discontinued and the new work started on 1 January 1948 as the result of an SMA order.
